

IF YOU BELIEVE IN BEING "ROUGH" WITH TREASON STAND UP AND BE COUNTED—NOW!

Senator McCarthy, too, has been "rough." He knows that only vigorous methods will save America.

Like the mother who didn't even thank the locomotive fireman who saved her child, multitudes of unreasoning, uninformed people bawl out McCarthy. They "approve his objectives, but not his methods."

In spite of efforts to alert America, millions do not yet realize what surrender to Communism would bring to the United States.

They don't know the devilry and cunning of the disciplined, Moscow-directed Communist Party. They don't sense the extent of Communist Party infiltration into American life. There is not an industry of any size—no branch of government—that does not have a Communist cell. To doubt this is foolhardy.

What would happen to you and to your children under Communism?

Soviet Russia covets the productive capacity of the United States. She has forced German scientists and technicians to work for her since 1945. She would force American scientists, administrators, technicians and teachers to keep up production in a sovietized United States.

But this productivity would not be for the American people. It

Back in the 1890's a small boy started over a single-track trestle of the Black River Railroad in Northern New York. He got half way across when the engineer saw him and slammed on the brakes.

The fireman, knowing he could not stop in time, crawled to the cowcatcher and grabbed the boy, unhurt, from the jaws of death.

But the onlooking mother bawled out the fireman because he was "rough!"

would be for the Communist dictators and Party members throughout the world. Most Americans would be under the iron heel of the conqueror.

The man who has realized this danger and thrown himself most fearlessly into the fight is Senator McCarthy.

In vigorously and fearlessly exposing for subsequent prosecution any number of this nation's enemies, McCarthy has terrified the guilty and has offended the sensibilities of some who may not be guilty. And because here and there some one has felt himself aggrieved, a veritable upheaval has been caused. Even some clergymen have attacked Senator McCarthy as though he were the Devil himself.

Some say "Leave it all to the FBI." But the FBI does not have the power of subpoena nor the in-

vestigative powers of a duly constituted committee of the Congress. The Congress is the people. The FBI is a bureau in the Executive branch of the government.

Some of the attacks on Senator McCarthy appear to be venomous frauds. For example, you can read in the CONGRESSIONAL RECORD of April 5, 1954 (pages A2597-98) details of a letter-attack on McCarthy from his home city of Appleton, Wisconsin, published in LIFE Magazine of March 29. The twelve individuals ostensibly signing the letter say that "support of McCarthy means endorsement of Nazism . . . This is an indictment we Appleton Republicans bitterly resent."

According to the CONGRESSIONAL RECORD, only two of the twelve signers were bona fide residents of Appleton. Five were not even voters in Wisconsin. None were Republicans. The letter campaign was organized by a former student from Cambridge, Mass.

A Federal grand jury in Las Vegas, Nevada, has indicted a local publisher for printing and mailing attacks on McCarthy which would "incite the murder or assassination" of the Senator.

The enormous service that McCarthy is rendering the American people is ignored and discredited by many who are too busy to get all the facts for themselves.

They overlook a truth that Senator McCarran stated forcefully in the Senate on April 5—that a major Communist objective "is the destruction of anti-Communist activity in the Congress of the United States, especially the destruction of Congressional investigating committees which have been exposing Communists."

Such is the situation we have today. While many people talk about the dangers of Communism, McCarthy is one of those who act. He has exposed Communism where no one has suspected it.

The left-wing elements are desperate. They will stop at nothing. If they "get" McCarthy, they will presently "get" Jenner and Velde.

As for McCarthy, it may be the investigation of the controversy between the Army and McCarthy's aides will have disclosed some errors of judgment—on both sides. Nobody in the thick of battle, in Congress, in court, or on the platform, can always be right in every move. Sometimes they have to be rough—like the fireman who saved the boy on the trestle.

But even if the investigation shows that McCarthy was mistaken in some cases, we say that McCarthy is too great an asset to America to have his usefulness impaired in the slightest degree.

With the continuing infiltration of Communism and internationalism, what America needs is more "rough," determined men—like Joseph McCarthy.

STAND UP WITH US AND BE COUNTED!

We are sure that millions of Americans believe as we do and would like to endorse the statement appearing on this page. We have asked the National Economic Council to act as a Clearing House for citizens who resent the Communist and internationalist smear campaign to silence Senator McCarthy and destroy him.

We believe this page should be repeated across the country, and have asked the National Economic Council, acting for us, to make mats available, at cost, for reproduction in other publications.
